1. Zenica - Travnik Road

A new road is being built about 70 kilometers northwest of Sarajevo, which will join Zenica to Travnik, over a length of 22 kilometers. This road will considerably shorten the distance between the two places (now 45 kilometers). The road, which is not asphalted is six meters wide, with a stone foundation and lateral drainage. The first stretch of 13 kilometers, between Zenica and Brajkovici, was finished about the middle of April 1947 and is already open to traffic. Two wooden bridges have been built, one 24 meters and the other 21 meters in length on the Lasva River near Travnik.

2. Brajkovici - Vitez Road

Work is also in progress on a new strip of road ten kilometers long, between Brajkovici, east of Travnik, and Vitez, which will be of the same type as the Zenica - Travnik road.

3. New Road and Bridge Construction in the Postumia Area

- (a) Landel: A new bridge is under construction which will be 20 meters lower than the existing one.
- (b) The Novasusica - Kosana road is to be joined to the main road.
- (c) The Postumia - Motta road, northeast of Trieste, is being asphalted.
- (d) The Hrusevic - Sajevca road is being widened to four meters and given a gravel foundation.
- (e) Work on the viaduct over the Pivka River on the main road Fiume - Ljubljana near the Prestranek railway station has been completed. The viaduct is about 120 meters long.
